Please invite all the women mathematicians you know!

The three-day conference aimed at African female mathematicians (both pure and applied) will be focused around the theme of Women in Mathematical Communities.

Activities will include:
- scientific talks by women in various areas of mathematics,
- open problem discussions,
- an accredited short course in Matroid Theory,
- plenary talks by outstanding women mathematicians,
- an inter-disciplinary Psychology of Abstract Mathematics panel discussion
- a teaching & learning talk and activity for learners and teachers from surrounding schools

Register:
https://forms.gle/TQGn3BCZhnVo3fWX6
Registration fee: R 2000 per person
This includes the accredited short course in matroid theory. Those who complete it will receive a certificate.

Limited to 70 participants.

Local organizing committee:
- Dr Ronalda Benjamin
- Dr Retha Heymann
- Dr Karin-Therese Howell
- Dr Sophie Marques
- Dr Riana Roux
- Ms Hosana Ranaivomanana
- Ms Lesley Wessels

For any further enquiries, please email
awimsun@gmail.com

REGISTRATION IS OPEN!

Important dates

28 February – Deadline for the submission of abstracts & closing of registration

Plenary speakers:

Prof Kerstin Jordaan
UNISA, South Africa

Prof Eunice Mphako-Banda
WITS, South Africa

Prof Kieka Mynhardt
Victoria University, Canada

Prof Ingrid Rewitzky
Stellenbosch University, South Africa

Prof Lesley Ward
University of South Australia, Australia

Matroid Theory Short course presented by
Prof Nancy Neudauer
Pacific University, USA

African Women in
Mathematics
Conference

Women in Mathematical Communities

23-25 March 2020
Stellenbosch University
https://math.sun.ac.za/awmc/

Please note that the South African Numerical and Applied Mathematics (SANUM) Conference immediately follows AWIM 2020. See http://sanum.github.io/ for more information. There will be a registration discount for delegates who attend both conferences.
